

The Thermax-Babcock Wilcox JV was announced last March for the manufacture of supercritical boilers which means boilers with configuration of over 600 MW, as well as subcritical boilers over 300 MW. Thermax has also signed a technology transfer deal with Babcock and Wilcox for the manufacture of sub-critical boilers, in the range of 100-800 MW.

Thermax executed a 100% biomass fired cogeneration plant, deploying a 33 TPH hybrid water tube superheated bi-drum boiler with a reciprocating grate, designed at 67 kg/cm² pressure and 450°C temperature, for the client. The boiler has been designed to run on a mix of biomass briquettes and loose biomass fuels to generate 4 MW power as well as ...

Thermax Babcock & Wilcox Energy Solutions Limited (TBWES), a wholly owned subsidiary of Thermax has concluded an order of Rs. 513 crore from a leading industrial conglomerate, setting up a 600 MW greenfield energy project in Botswana, Southern Africa.

Thermax and Babcock & Wilcox have had a business relationship for 20 years, including a successful joint venture for industrial boilers and heat recovery steam generators. The latest agreement will give Thermax the right to use B& W PGG's proven technology to make a
