

This 25-year concession agreement involves the construction and operation of Togo's second solar photovoltaic power plant. The plant will be in Sokodé, central Togo and will generate 64 MWp of electricity. The plant will serve as an eco-friendly source of renewable energy for more than 700,000 people in the surrounding rural communities.

The Adakpoko solar power plant will become the largest solar photovoltaic power generation facility in Togo, and even in the West African sub-region. This sustainable development project is now being put out to tender, with two ...

The Adakpoko solar power plant will become the largest solar photovoltaic power generation facility in Togo, and even in the West African sub-region. This sustainable development project is now being put out to tender, with two bidding options.

AMEA Power has announced the official commissioning of a 50MW solar PV plant in Blitta, Togo, marking the country's first utility-scale renewable energy project developed by an Independent Power Producer (IPP). The solar plant reached commercial operation within 18 months of signing the Power Purchase Agreement, in spite of the COVID-19 pandemic.

After Blitta, a new photovoltaic solar power plant is to be built in Dapaong in the Savanes region of Togo. The project is the subject of an international call for tenders issued by the Respite Project Regional Coordination Unit (URC) based in Monrovia, Liberia.

A global infrastructure investor has signed a 25-year concession agreement with Togo and a French multinational electric utility company for the design, construction, financing and operation of a 64MWp solar PV power plant.

The project is part of Togo's National Development Plan, with the objective of providing universal access to electricity by 2030. Located in the village of Blitta, the project will power more than 222,000 households and will ...

The project is part of Togo's National Development Plan, with the objective of providing universal access to electricity by 2030. Located in the village of Blitta, the project will power more than 222,000 households and will include a 4WMh Battery Energy Storage System to extend the availability of clean energy to the electricity network at ...

The Adakpoko Solar Power Station is a planned 390 MW (520,000 hp) solar power plant in Togo, with 200 MWh (720 GJ), attached battery energy storage. The power station is in the development
