Where is the largest solar power plant in Togo?

The solar power plant is located in Blitta, a division in the Central Region. With a capacity of 50 MWp, the Mohamed Bin Zayed plant becomes the largest utility-scale solar park in Togo, and indeed in the West African sub-region. The new facility, which supplies clean energy to Togo's national grid, increases the country's energy autonomy.

Who owns AMEA Togo solar?

The solar park will be operated and maintained by Amea Togo Solar, the local subsidiary of Amea Power, the UAE-based IPP that owns the power station. It is expected that the power station will provide electricity to 600,000 homes and 700 small and medium-sized enterprises, in Togo.

Who developed the solar power station in Togo?

The power station was developed by Amea Power, an independent power producer (IPP), based in the United Arab Emirates. The solar farm, which is the largest grid-ready in Togo, is also referred to as Mohamed Bin Zayed Power Station, named after His Highness Sheikh Mohamed bin Zayed Al Nahyan, the Crown Prince of Abu Dhabi.

What is the largest solar farm in Togo?

The solar farm, which is the largest grid-ready in Togo, is also referred to as Mohamed Bin Zayed Power Station, named after His Highness Sheikh Mohamed bin Zayed Al Nahyan, the Crown Prince of Abu Dhabi. The power station began commercial operations in June 2021.

When did AMEA Power commissioned a 50MW solar power plant in Togo?

AMEA Power commissioned a 50MW solar power plant in Togo in June 2021. The Sheikh Mohamed Bin Zayed solar plant was delivered in record time, reaching commercial operation within 18 months of signing the Power Purchase Agreement, in spite of the COVID-19 pandemic.

When will AMEA power's solar project become fully operational?

The project became fully operational in July 2021. AMEA Power is constructing a 500MW solar PV project in the Aswan Governate in southern Egypt. Once commissioned, the solar power plant will be the largest solar PV project on a single site in the country. The project reached financial close in late 2022.

Solar Power Plant, Togo. AMEA Power commissioned a 50MW solar power plant in Togo in June 2021. The Sheikh Mohamed Bin Zayed solar plant was delivered in record time, reaching commercial operation within 18 months of signing the Power Purchase Agreement, in spite of the COVID-19 pandemic.
