

Tokelau's solar energy system is set to be upgraded on each of its three atolls. Jointly funded by the governments of Tokelau and New Zealand, the \$NZ9 million (\$USD5.7m) system will be installed by New Zealand company Vector PowerSmart.

A week ago New Zealand solar systems installer PowerSmart said it had wrapped up 1 MW of solar installations that can meet 150% of the current electricity needs of Tokelau. The islands, administered by New Zealand, have a population of about 1,500 people.

In today's edition, Stephanie Bandi reviewed the newly released documentary Tokelau: The Solar Powered Island of the Future which showcases how the island nation harnesses the energy of the sun to ...

In 2011, at the Durban Climate conference, Foua Toloa, the head of Tokelau, said the island would be using 100 percent renewable energy by 2012. By October of that year residents accomplished their goal, becoming the first country in the world to produce 100 percent of its electricity from the sun.

Tokelau's solar energy system is set to be upgraded on each of its three atolls. Jointly funded by the governments of Tokelau and New Zealand, the \$NZ9 million (\$USD5.7m) system will be installed by New Zealand ...

The low cost of solar panels presents an opportunity for investing in solar energy across the Pacific Islands, giving governments in the region a way to curb inflation and promote energy independence.

Tokelau, an island nation in the South Pacific, is now completely able to support itself with solar energy. Elly Earls met Joseph Mayhew of the New Zealand Aid Programme to find out how this tiny collection of atolls has become almost ...
