

What happened to Babcock & Wilcox?

Babcock & Wilcox Enterprises, Inc. announced the closing of the previously announced sale of the Italy-based SPIG S.p.A. group of companies and Sweden-based Babcock & Wilcox V&#248;lund AB -- formerly known as G&#246;taverken Milj&#246; AB (GMAB).

How will forced austerity affect Tonga?

Coming after not only the Covid-19 pandemic but also the Hunga Tonga-Hunga Ha'apai volcanic eruption in 2022, forced austerity will hamper Tonga's recovery while crowding out much-needed funds for health, education, and climate adaptation. The situation also carries risks for China, and, potentially, Australia too.

Who is Babcock & Wilcox?

Headquartered in Akron, Ohio, Babcock & Wilcox Enterprises, Inc. is a leader in energy and environmental products and services for power and industrial markets worldwide. Follow us on LinkedIn and learn more at [babcock.com](http://babcock.com). Forward-Looking Statements

Could Australia help Tonga get through on its debt?

The alternative scenario, currently unfolding, sees Australia enable Tonga to scrape through on its debt repayments with its strained relationship with China kept in open air. Nonetheless, Tonga, China, and Australia are all walking a debt tight rope. Tonga is highly exposed to frequent climatic disasters.

Where does Tonga's debt come from?

Most of Tonga's external debt originates from a 2008 loan provided by China's EXIM Bank to help finance the rebuilding of the Nuku'alofa central business district following the 2006 pro-democracy riots. The loan was controversial from the outset as the debt pushed Tonga's risk indicators beyond sustainable benchmarks.

How did Tonga respond to the undersea volcanic eruption?

Disaster preparedness, combined with updated risk information and timely assessments of damages and needs, were critical for Tonga's response to the undersea volcanic eruption. Just seven months before the disaster, in June 2021, the Government of Tonga, with support from ADB, completed a multi-hazard disaster risk assessment of Tongatapu.

With more than 300,000 MW of generating capacity in approximately 60 countries, B& W's heritage is built on steam generation. We also have sold and installed more than 5000 industrial steam boilers for a wide range of process applications.
