

The Zandolie Field Development was DeNovo's second offshore instalment and has provided the National Gas Company of Trinidad & Tobago with a stable supply of locally sourced natural gas. A lightweight, unmanned modular design that was 100% fabricated in-country, dramatically reducing the cost and carbon emissions from manufacturing ...

Winner of Best Decarbonisation Project 2022 from the Energy Chamber of Trinidad and Tobago. The Zandolie field is DeNovo's second field development project. First discovered in 1962 by Trinmar Limited and later appraised by Petro Canada in 2008, Zandolie represents DeNovo's commitment to increasing natural gas supply to the petrochemical ...

3 ???· MALA Baliraj has been appointed chairperson of the Energy Chamber of Trinidad and Tobago, succeeding Jerome Dookie. Baliraj, the chief executive officer of Massy Wood Group Ltd, has served on the

In addition to being fully powered by renewable resources, the Zandolie deck, jacket and main module were all fabricated and assembled in Trinidad and Tobago - a clear demonstration of our quest to maximize local talent and resources, while finding safe and effective alternatives to project execution, and non-traditional approaches to ...

At ZNL Energy, we understand that the future of our planet depends on the development and implementation of green technologies. However, we recognize that the scarcity of minerals is becoming an increasingly pressing issue, as well as the importance of proper health, safety, and environmental focus for the battery industry.

The ground-breaking integration of renewable resources makes Zandolie the first design of its kind in Trinidad and Tobago. Powered by wind and solar, the 100% renewably powered platform was also fully fabricated in country, affirming DeNovo's commitment to reducing its carbon footprint and maximising local talent and resources.

3 ???· Touchstone Exploration (Trinidad) Ltd. has entered into an agreement with BG Overseas Holdings Limited to acquire all the share capital of Shell Trinidad Central Block ...

Trinidad and Tobago's Energy Conference 2024 MEEI staff were recognized for their efforts towards expanding and accelerating the use of Compressed Natural Gas (CNG) as an alternative transportation fuel in Trinidad and Tobago.

The minimum facility, normally unmanned, offshore gas production, Zandolie platform located in Block 1(a) on the west coast of Trinidad and Tobago, is presented in this paper. The facility utilizes a fully renewable

Trinidad and Tobago znl energy

power generation system and a modular design which reduces carbon emissions and installation costs in shallow water developments.

3 ???· Touchstone Exploration (Trinidad) Ltd. has entered into an agreement with BG Overseas Holdings Limited to acquire all the share capital of Shell Trinidad Central Block Limited. Under the terms of the acquisition, Touchstone will pay BG Overseas Holdings Limited \$23 million consideration in cash prior to closing adjustments.

ENERGY Minister Stuart Young has described the completion of the new Zandolie exploration platform as a proud moment for energy company De Novo and Trinidad and Tobago. He made this comment on Monday at the Point Lisas Industrial Estate, ahead of the platform"s sail-off.
