

Created in 2013, French manufacturer of durable, modular lithium batteries for professionals in the robotics, electric mobility, offroad and military sectors. Durable thanks to the TYVA Refill ...

TYVA Energie is a French manufacturer of sustainable and modular lithium batteries located in Annonay (Ardèche, France). From its creation in 2013, the company has developed three ranges of lithium batteries elaborated by its own Research Unit in order to power all kinds of products for various applications fields: robots, offroad, defence ...

TYVA Energie is a French manufacturer of lithium batteries since 2013. We develop sustainable and modular batteries solutions to answer specific or high efficiency energetic needs. From the creation of our own batteries ...

TYVA Energie is a French manufacturer of lithium batteries since 2013. We develop sustainable and modular batteries solutions to answer specific or high efficiency energetic needs. From the creation of our own batteries management systems (BMS) and static and dynamic switch box (PDU) to the development of our fire protection technology, we ...

Increasing investment into clean and reliable renewable energy for The Gambia is a top priority of the government. Due to its strategic location and ideal conditions, The Gambia is ideally suited for investment into the Solar Energy sector.

With more than 13 years of experience in industrial battery development and manufacturing, the TYVA ENERGIE group, through its subsidiaries, offers TYVA LITHIUM, a customized Li-Ion battery, with TYVA MODULOO, an innovative, 3D modular and ecological Li-ion battery.

TYVA Energie's lithium batteries have quite a few components and technologies enabling their protection against any internal or external risks, including a battery management system (BMS). To go further with the safety of our products, we developed TYVA Pyro Protection solution (TPP) to isolate cells from each other and thus limit fire ...

In order to offer you the best whether in terms of lithium batteries, electronic components, new technologies, services and support, TYVA Energie's team is committed everyday by your side. Our know-how is divided into different competence centers working together all along the process and bringing your ideas to life.

TYVA Energie is a French manufacturer of sustainable and modular lithium batteries. Our batteries solutions are designed and produced in Annonay, France thanks to our Research Unit made up of software and hardware Engineers as well as Project Managers.

Tyva energie The Gambia

Created in 2013, French manufacturer of durable, modular lithium batteries for professionals in the robotics, electric mobility, offroad and military sectors. Durable thanks to the TYVA Refill reconditioning solution, which gives batteries an infinite lifespan.
