

U S Virgin Islands energetica solar panels

The new Virgin Islands Solar for All Program has the power to transform the U.S. Virgin Island's residential energy landscape, addressing residents' high electricity costs while creating new opportunities for energy resilience and reliable, affordable, clean power for communities most in need.

The USVI Solar+ Financing (SPF) Pilot Program is a loan program for residential solar PV and Battery systems being offered through the Virgin Islands Energy Office and the VI Water and Power Authority. Through on-bill repayment this program allows property owners to pay for renewable energy systems through their monthly utility bill.

Solar energy for your U.s. Virgin islands home Whether you're tired of paying outrageous amounts of money for energy each month, or you want a more reliable source of power to help you ride out the next hurricane in safety (or both!), Solar Energy can provide you with the savings and security you're looking for.
