EnTech Solutions(TM) delivers innovative energy solutions tailored to provide reliable and clean energy. Our expertise includes: Distributed Energy Capabilities; Electric Vehicle (EV) Charging Infrastructure; Energy Asset Management; We utilize proprietary energy modeling and optimization software to deliver comprehensive and resilient electricity.

At Entech Solutions, we specialize in delivering comprehensive design solutions that integrate architectural innovation, civil engineering precision, and robust structural integrity. Our architectural team brings your vision to life with creative and functional designs that blend aesthetics with practicality.

EnTech Solutions(TM), a division of FTI, collaborated with U.S. Gain to integrate a solar microgrid at its Dallmann East River Dairy digester. The digester produces renewable natural gas (RNG) for the transportation industry.

Entech is a specialist engineering services & solutions company servicing clients across a range of engineering segments helping improve their engineering efficiency, support their global footprint and improve their competitiveness.

EnTech Solutions, a division of FTI, provides distributed energy capabilities, eMobility charging, innovative sustainable fuel technologies and asset management solutions for businesses looking for reliable, clean energy solutions. We utilize proprietary energy modeling and optimization software to... Read more

The Uzbekistan Power & Renewables Report features BMI's market assessment and independent forecasts covering electricity prices and power generation (coal, gas, oil, nuclear, thermal, natural gas, hydro and non-hydro renewables including: wind, solar, geothermal, tidal, wave, and biomass), electricity consumption, trade, transmission and ...
