Where are Kat and Rob from Island Green Power based?

Kat is based in Yorkshire where, outside of work, you may find her exploring the countryside with her family. Rob works within the legal team at Island Green Power and assists in the land acquisition and site set-up aspects of the project cycle.

Renewable energy projects developer Island Green Power (IGP) has secured GBP 150 million (USD 194.7m/EUR 180.2m) in financing to cover development and operating costs related to its UK portfolio.

Established in 2013, we specialise in the development of utility-scale solar projects and battery storage systems with operations across the UK, Spain, Italy, Australia and New Zealand. ? Our mission is to help countries increase their solar energy usage, making more renewable energy possible whilst drastically reducing carbon emissions.

Under his leadership, Island Green Power has grown from being a UK focused developer to a developer with operations in 5 markets who are well positioned to lead the energy revolution. ? Prior to founding Island Green Power, Ian co-founded Scientia Solar which completed the development of 12 projects in Italy under the feed in tariff regime. ?

Our expertise is industry leading. We operate around the world sourcing, assessing and developing potential sites. We are proud of our proven ability which delivers industry leading solar farms and battery storage projects. ? So far 21 of the projects we developed are successfully operating, with more under construction.

Island Green Power specialises in the development of NSIP solar photovoltaic plants, by sourcing land, managing the permitting process and overseeing the plants construction until it is operational. This business is among the UK's most ambitious when it ...
