Experience the next generation of energy storage with the ESM-48100B1, an intelligent lithium battery designed for demanding applications. This powerhouse seamlessly blends raw power with advanced technology, delivering exceptional performance and peace of mind for off-grid, backup, and solar energy systems.

The ESM-48100B1 is a new intelligent energy storage unit developed by Huawei. The intelligent unit can work with the Huawei telecom power system to implement multiple intelligent features and anti -theft functions. It can also connect to the NetEco by IoT gateway
