On the remote island of Malekula, a new solar micro-grid is changing the lives of over 2,800 people -- boosting local development while contributing to Vanuatu's sector-specific target of transitioning to close to 100 percent renewable energy ...

With the remoteness of the islands and limited access to centralised utilities, PCS also offers self supporting products suitable for the Vanuatu environment, including solar showers, hand spears, personal solar lighting and Lifestraw water filters.

On the remote island of Malekula, a new solar micro-grid is changing the lives of over 2,800 people -- boosting local development while contributing to Vanuatu's sector-specific target of transitioning to close to 100 percent renewable energy in the electricity sector by 2030.

The solar energy produced by the sun's rays on the earth represents an endless and 100% green natural source. UNELCO uses photovoltaic panels. The first grid-connected photovoltaic farm in Vanuatu was installed on the roof of our dock workshop in Tagabe. With a nominal power of 81 kWp, it was commissioned in May 2011.
