

Pope Francis has unveiled a plan to transition Vatican City to solar energy as its primary source of electricity in his latest motu proprio "Fratello Sole" or "Brother Sun." The Holy Father has directed the construction of an agrivoltaic system on Vatican-owned land in Santa Maria di Galeria, located just outside Rome.

Providing energy for Vatican City State. The agrivoltaic plant will make use of the Holy See's property at Santa Maria di Galeria. Located on the edge of Rome, the 424-hectare site houses the transmission facilities for Vatican Radio, thanks to a 1951 agreement between the Holy See and the Italian State.

This Special Collection aims to provide state-of-the-art knowledge on the concept of the "solar city" - the idea of city-scale deployment of sustainable energy technologies, mainly rooftop solar photovoltaic (PV). ... Engaging the local utility and including electrical distribution system design in district master planning can reduce ...

The canon law of the Catholic Church is supreme in the civil legal system of Vatican City State. The Supreme Tribunal of the Apostolic Signatura, a dicastery of the Roman Curia and the highest canonical tribunal, is also the final court of cassation in the civil legal system of Vatican City State. Its competence includes appeals concerning ...

Pope Francis has renewables on his mind as he says he wants Vatican City to run on solar power. To achieve his aim, solar panels will be installed on a Vatican-owned property outside Rome.

Pope Francis has unveiled a plan to transition Vatican City to solar energy as its primary source of electricity in his latest motu proprio "Fratello Sole" or "Brother Sun." The Holy Father has directed the construction of an ...

Pope Francis has commissioned an agrivoltaic plant to be located in the extraterritorial area of Santa Maria di Galeria that will ensure the complete energy sustenance of Vatican City.

Pope Francis has announced plans for the Vatican City to go solar through his latest motu proprio, Fratello Sole, or Brother Sun. The pope has delegated Vatican governing bodies to work with the Italian government to build an agrivoltaics system in the lands of Santa Maria di Galeria, located outside of Rome and an extra-territory of Vatican City.

Pope Francis has initiated the construction of an agrivoltaic plant within the extraterritorial area of Santa Maria di Galeria to provide energy for Vatican City. In his Apostolic Letter titled "Fratello Sole" (Brother Sun), the Pontiff emphasizes the critical role of solar energy in addressing environmental challenges, echoing themes from ...

Vatican City solar sestion

Pope Francis has unveiled plans for a solar plant that will let the Vatican City generate all its electricity from renewable sources. With an area of 121 acres or 0.44km² and a population of around 825, the Vatican City in Rome is the smallest independent state in the world by both area and population.

The Holy Father has tasked the relevant Vatican governing bodies to collaborate with Italian authorities and build an "agrivoltaic system," which would use land in Santa Maria di Galeria, an extra-territory of Vatican City situated outside of Rome, for farming and solar energy production.

Solar energy is gaining traction everywhere, including at the Vatican. In an apostolic letter, Pope Francis announced that Vatican City will soon be powered by solar panels. The letter that was titled "Brother Sun," reported Euronews, was dated June 21, 2024 on the summer solstice which is the longest day of the year. The apostolic letter ...
