Solarcentury, an integrated solar power company with operations across Europe, Latin America, and Africa, has commissioned two solar-hybrid mini-grids, bringing power to the rural communities of Areza and Maidma in Eritrea in East Africa.

Areza and Maidma are rural communities in Eritrea that will benefit from this cleaner, more affordable reliable source of power. They currently depend entirely on diesel-generated power, available in the evening only, because they are set in one of the most remote areas in Eritrea without connection to the nation's electrical grid."
