

# Who will repair the photovoltaic panel if it breaks down

Can you repair a solar panel yourself?

It's not recommended for most homeowners to repair solar panels themselves, as they can be delicate and potentially dangerous if mishandled. It's best to hire a professional solar panel technician. Are solar panel repairs covered by warranties?

What happens if a solar panel is broken?

Over time, solar panels can become cracked or broken due to the force of the elements. While a compromised solar panel is not a total loss, it will not perform to its maximum potential.

Can a broken solar panel be recycled?

A broken solar panel that cannot be repaired will have to be taken away for recycling. Whatever you do, do not throw it in a landfill or dump it anywhere. Solar panels contain harmful or toxic elements that can cause environmental damage if they leach into the ground.

How do I keep my solar panels working?

To keep your PV solar systems working with maximum efficiency, maintaining solar panels is vital. Regular checks and preventative maintenance or repairs can help ensure that your solar panels are working and generating at their optimum level.

Why should you choose a solar panel maintenance scheme?

With a solar panel maintenance scheme from ESE Solar, you can have the confidence that should a problem arise, you've got the servicing and support you need to have the issue taken care of, all whilst keeping solar panel maintenance costs low. Still need to speak to one of our Solar Specialists? We can help!

What happens if a solar panel is damaged in a storm?

If your solar panels are damaged in a storm, you should consult your solar panel provider or a technician. They can then assess the damage done and recommend the necessary actions that need to be taken. Can I upgrade or expand my solar panel system during repairs?
