

Will moving photovoltaic panels upstairs have any impact

Can I move my solar panels?

Options for moving solar panels could be to other sections of the same roof or moving solar panels to another roof altogether. We regularly undertake moving solar panels and we would be pleased to discuss your requirements to move your solar panels. There are a variety of reasons why you want to move your solar panels.

What happens if you move solar panels outside your service area?

Things get more complicated when you move outside of your solar company's service area. Since they don't operate in your new neighborhood, you won't be able to have them move your solar panels. In that case, you'll either have to move the solar panels yourself or hire a third party to move them for you.

What happens when you move a photovoltaic system?

If you're moving long distance, the process of uninstalling, transporting, and reinstalling a photovoltaic system yourself will be extremely difficult, risky, and expensive. The company that installed the solar panels on your old home won't be able to help, and your warranty will be voided.

Can I move solar panels to a flat roof?

We can assess if moving solar panels would result in an improved efficiency of your solar panels. Sometimes our customers plan to fit dormer windows during an extension project. As a result, we can move solar systems to a flat roof. This is perfectly feasible and we are very happy to assess and quote for the work required.

How much does it cost to move solar panels?

Read here Moving solar panels is technically possible but not financially advisable. Relocation costs include labour, scaffolding, MCS re-registration, and storage, totalling approximately £5,280. These costs can amount to a huge chunk of the initial installation cost of the solar system.

What happens if you move out of state with solar panels?

If you're moving out of state or don't want to take your solar panels with you, your solar lease agreement will be transferred to the new buyers - if they don't agree to take over the lease, though, you'll have to buy out the remainder. Moving out of state with a solar panel lease is a consideration for those planning a move.
