

The Development Bank of Central African States (BDEAC) is set to provide US\$6.8 million support to construct solar hybrid power plants at Mongo and Ati cities in Chad. The support is owing to a financial agreement signed between the development bank (BDEAC) and the project developer, ZIZ Energie.

The proposed project for the construction of Solar Hybrid Power Plants at Mongo and Ati in Chad is set to get a US\$ 6.8M support owing to a financing agreement signed recently between the Development Bank of Central African States (BDEAC) and the project's developer ZIZ Energie.

Chad, supported by World Bank funding, calls for expressions of interest from consulting firms to oversee the construction of a 30MWac Photovoltaic power plant, 60MWh Storage System, 90 KV line, and a 90/33 Kv substation. The project aligns with Chad's commitment to sustainable energy, and interested firms must meet specific criteria.

Chadian mini-grid provider Ziz Energie has received a loan of 4 billion CFA francs (more than EUR6 million) from the Development Bank of Central African States (BDEAC). This financing will enable the electrification of two towns via hybrid solar mini-grids.

Ziz Energie obtains a new loan for the installation of its solar mini-grids in Chad. The EUR1.5 million loan is being provided by Proparco, a subsidiary of the French Development Agency (AFD) group, to support the development of Ziz Energie's activities in Chad.

ZIZ Energie is installing a 2.5 MWp solar PV power plant in Mongo with an energy storage system and back-up generators. Starting in 2022, approximately 3,300 P-RECs are projected to be issued each year, although energy production estimates will ...

Chad has launched an auction calling for a consulting engineer to control and supervise the build of a 30 MW (AC) solar power plant - with a 60 MWh storage system, 90 kV line and 90/33 kV ...
