Our study draws on multi-sited fieldwork in June 2023, to the largest solar plant in Uganda (Kabulasoke at 20 MW), three solar mini-grids in remote rural villages in the Western Region (Katiirwe, Kanyegaramire and Kyamugarura), through several dozen on-grid and off-grid villages, two meetings with the regional utility Kyegegwa Rural Electricity ...

Solar power in Uganda will lead to more equitable access to essential resources such as electricity and internet services. As access improves, students across all regions will receive a stronger foundational education, promoting the resilience of ...
